EDUCATION

IES IPS ACADEMY Indore, MP — Expected May 2027
Bachelors in Technology

WORK EXPERIENCE

Frontend Developer Intern, ABS Softech Pvt. Ltd
ABS Softech Website — Oct 2025-Feb 2026

- Redesigned the company website using React.js
- Improved layout, responsiveness, and UI consistency
- Built reusable components and enhanced user experience

Design-Lab International Website

- Built the website across frontend, backend, and database layers, ensuring smooth integration and stable releases.
- Developed a responsive, accessible UI with React.js, improving usability across devices and browsers.
- Created RESTful services with Node.js; designed schemas and queries in MySQL (managed via phpMyAdmin).
- Tech: React.js, Node.js, PHPmyAdmin, MySQL, HTML, CSS, JavaScript

Web Developer Intern, IMC Internship With Mayor — Dec 2025-Feb 2026

- Build the UI and developed the fully functional website based on organizational requirement By collaborating with stake holders and team members.

Projects

Crop Disease Detection using CNN and Flask

- Developed a **CNN-based crop disease detection system** using **TensorFlow/Keras**, trained on plant leaf image datasets to classify healthy vs infected crops with high accuracy.
- Implemented **image preprocessing, model training, and evaluation** in **Python**, enabling multi-disease classification using deep learning and computer vision techniques.
- Designed a **responsive front-end** using **HTML, CSS, and JavaScript** for real-time leaf image upload and prediction display.
- Gained hands-on experience in **computer vision, CNN architectures, model deployment, and full-stack web development.**

Weather Prediction Website

- Developed a **responsive Weather Prediction Web App** using **HTML, CSS, and JavaScript**, integrating a **third-party Weather API** to display real-time temperature, humidity, wind speed, and weather conditions.
- Strengthened skills in **API integration, asynchronous JavaScript, DOM manipulation, and front-end best practices**.

SKILLS & INTERESTS

Frontend: React JS, HTML5, CSS3, JavaScript
Backend & Database: Node JS, MySQL, PHPmyAdmin, MongoDB
Languages: Python, C, C++
Version Control: Git, Github
Tools: VScode, Google Colab
Data Analysis: PowerBI, NumPy, Pandas, Matplotlib,MS-Exel
